TO RELEASE AMERICANS

Soviet Intends To Take This Course, Baltimore Woman Declares.

TELLS PRISON STORY

Was Kept In Close Confinement Several Months, She Says—Aided Soviet Prisoners.

Riga, August 1.—The release of all Americans still in prison in Russia may be expected within a few days, according to Mrs. Marguerite E. Harrison, of Baltimore, who herself spent many months in imprisonment at Moscow, but who was released and came here under protection of United States Senator France, of Maryland. She was informed before leaving Moscow that all would be out soon.

No formal notification of the release of the Americans has yet been received at Riga, and the American officials have not been advised as to whether the prisoners will be freed one at a time or in a group.

Mrs. Harrison related her story today and pictured her life in prison as differing far from sketches of her sufferings drawn from time to time by travelers arriving in the Baltic States from Russia. Although under close confinement for considerable time, Mrs. Harrison gave an unemotional statement of her experiences. She was thin and frail and her recital was interrupted occasionally by a deep cough, as she unresentfully told of the events from the day of her arrest to her release.

"I was first arrested on April 4, 190, two months after I arrived in Russia by way of the Polish frontier," said two days for cross-examination. Then was released, and for six months was permitted to work unmolested in Moscow.

"In October, I was again arrested by order of the Cheka (the Soviet inquisition). I was charged among other things with having come to Russia without permission, with having supplied food illegally to American and British prisoners, and with having been in communication with people hostile to the Government—all of which was true. The examiners were polite, but they made me realize the seriousness of my position.

"Then I was put in solitary confinement for six days—not in a dungeon, but in a room like a small single room of a hotel. At no time was I in a dungeon, and this was my only solitary confinement in Russia. I was removmed on my own request to a general room, with the occupants varying from seven to eleven, where I spent nearly eight months. This building was not originally a prison, but was an old rooming house; it was primarily used for detention only, and the physical discomforts there were due to this fact.

CROWDS BEAT TRACTION MEN

Attack Follows Arrest of Auto Drivers At Bridgeport.

FEAR TO LEAVE JAIL

Mobs Grease Tracks At Martin's Ferry and Company Abandons Service.

Bridegport, Ohio, Aug. 1.—C. P. Billings, manager of the Wheeling Traction Company, and his assistant, Charles Marsh, left here early yesterday after a crowd, which gathered around the jail in which they were confined last night, on a charge of inciting to riot, had dispersed. The two men had been beaten last night by a crowd, and after giving bail had feared to leave the jail until the crowd dispersed.

The attack of the two men here followed the report last night of the arrest of a score of 'bus drivers at Wheeling, West Va., operating between the Ohio and West Virginia River points by special constables on a charge of violating certain sections of the West Virginia State Road law.

A controversy between traction officials and operators of the 'bus line, seems to have come to a head with the arrest of the 'bus drivers throughout the district. Crowds collected on the car tracks of the Wheeling Traction Company at Martins Ferry, Ohio, and at Wheeling last night, blockading traffic. The mob at Wheeling was dispersed only after riot squads of the police had been sent to the scene when regular police threatened to arrest the special constables for blocking traffic The constables had taken the 'bus drivers in tow, leaving the machines on the street.

Tracks were greased in the vicinity of Martins Ferry and traffic tied up there. At midnight last night the cars of the traction company were ordered withdrawn from the Ohio side of the river.

The appearance of Billings and Marsh here has not been explained, and it was with some difficulty that their bonds were obtained. The former was held under $300 bond and the latter under $100 bond, according to police at Bridgeport. They left in the direction of Wheeling in an automobile, after the crowd about the jail dispersed peaceably, the police said.

Tucker Refuted

A Statement Issued by Leaders of Labor Organizations

Richmond, Aug. 1.—Answering the attack made by the Hon. Harry St. George Tucker in the News Leader of yesterday, on organized labor and certain leaders of labor, we feel that it would be negligent and inecuable if we did not set forth clearly, the position of these attacked by Mr. Tucker, and thier reason for being in this fight.

Labor had tried to remain neutral toward candidates in this Gubernatorial campaign, and not take any action as an organized body, and had remained so until certain anonymous letters, sent broadcast among labor people, purporting to be from labor and bearing no signature or marks to indicate from whom it had been sent or by whom compiled and giving what was purported to be the record of one of the candidates, Senator E. Lee Trinkle.

Fearing that labor would misunderstand this anonymous circular, and believe that it was authentic information gathered by its representatives, and realizing that Senator Trinkle would be either State Senator, or Governor of Virginia during the next few years, and not courting the animosity or ill will of one whose power will be so great as will his, in either position, we felt that they might be placed in a position where they could really judge for themselves, which of the candidates was most friendly to it.

Having no record of any opportunity that Mr. Tucker has had since he was a member of Congress to demonstrate his feelings for labor, we had to go back to his last activities as a public servant. The statement sent out and which Mr. Tucker refers to as coming from one John A. Hall, Jr., was signed by W. G. DeCourcey, Chairman of Brotherhood of Locomotive Engineers, State Legislative Board, G. R. Waldrop, Chairman of Brotherhood of Locomotive Firemen and Engineers, State Legislative Board, G. E. Harris, Chairman of Order Railway Conductors, State Legislative Board, and J. M. Pitt, Legislative Representative of Brotherhood of Railway Trainmen, Division 651, and in no place did it have anything in it to indicate that John A. Hall, Jr., had any connection with it, or knew anything about it.

Mr. Tucker refers to this communication as the "back-stairs" manifesto, an situation wihch we vigorously resent. We would remind him that labor has its own methods of communicating with its members, which is not generally through daily newspapers on any subject of importance to its members, and this method of personal letter is not out of the ordinary. We do not have any recollection of the Tucker Managers or Mr. Tucker himself issuing instructions to his precinct leaders or county leaders or district leaders through daily newspapers, therefore we presume that those instructions have been sent out by personal letter or word of mouth.

The Coupler Bill, or Safety Appliance Act, referred to in our letter, was not to require a specific Coupler, but was the bill as vote don by Mr. Tucker after it had been amended to permit open competition on the particular coupler.

Mr. Tucker says that he voted against it because Mr. Sweeney and John A. Hall opposed the passage of the bill. Mr. Tucker further says, "The fact that the truth concerning the car-coupler bill was readily ascertained from records, coupled with out fact that one of the documents contains falsehoods above alluded to, doubtless induced the statement on the part of the author of one of them, that he was content to pass the word to the laboring people by underground methods rather than come out in the open."

Mr. Tucker has a poor memory for facts, or a poor talent for sticking to them when he says that Mr. Sweeney opposed its passage. Mr. Tucker deplores the fact that the Record was not quoted, therefore we take it that we have his permission to quote it. Congressinonal Record, Vol. 4, page 2247, there appears the record that the Telegram reading as follows:

"Urge passage of Couple Bill. In its present form it will result beneficially to all railway employees and railroads." Signed by Mr. Sweeney, Mr. Buchanan, Mr. Warner and Mr. Simerott.

This telegram was read by George D. Wise of Virginia on the floor of the House just before the bill was voted on. According to Congressional Record, Vol. 4, page 2248, Mr. Tucker voted against it.

We presume that in view of the foregoing records, and this statement over our sigantures, assuming full authority for what you say was signed by Mr. Hall, of the Virginia Federation of Labor, that you will admit that what you term our "back-stair" manifesto, is not quite as bad as your eyesight when you read the name of John A. Hall, Jr., where it is not written, and fail to read the names of the four of us who have signed the statement which you attribute to Mr. Hall, and we presume that you will further admit that your misstatement of facts is also a sort of "back-stair" method. We wonder what you think of the attack on Mr. Trinkle's record, issued in an anonymous form, seeking to mislead labor, both as to its authorship and the language of the body of the circular, because of its briefness, whereas if all of the facts had been given, it would have been in the whole, acceptable, and far more satisfactory than the record of Mr. Tucker on matters affecting labor when he had a chance to pass on them.

WASHINGTON DAY BY DAY

(From our Special Correspondent)

Washington, Aug. 1.—Here is something that will appeal to all women readers of the Gazette. The Republican administration was swept into power by the votes of not only the men but the results showed that a vast majority of the female contingent, too, gave their unqualified endorsement to the Republican ticket. Hence, President Harding and his political advisors are feeling their way with the hope that their endorsement of women suffrage when they needed the votes of the people of the country may be ratified in substantial recognition of the female contingent.

The most important conference—important in more ways than one—is called to meet at the Capital of the nation sometime in November. It may be earlier than the tentative date—November 11—Armistice Day—but it is to be held. As a result of this conference, the principal nations of the world—Great Britain, Italy, France, and the United States—Will be called together to discuss ways and means to bring about a world wide disarmament agreement on land and sea the consummation of which will mean that the powers of the world will never again engage in war but will spubmit thei rdifferences to a conference board for adjustment .

In casting about for the American membership on this body, President Harding is giving serious thought to the appointment of a woman, entertaining a nation-wide reputation, who is equipped in every way to fulfill the duties to which she will be called upon to perform. The readers of the Gazette maphap, are informed of the qualifications of many females in the Old Dominion equipped in every way to take upon themselves the serious possibilities that are to ensue as the result of such a gathering of international scope. The writer of this column is prepared to receive suggestions from the women readers of the Gazette, and he promises to place in the hands of the White House the qualifications of each and every candidate from Virginia. Disarmament is a pet which has been nurtured by women kind ever since the signing of the Armistice. They have it in their power now to help out in their humble way in order that the movement well on its way may be brought to a successful conclusion.

To the many hundreds of readers of the Gazette and those who attend the various moving picture shows which are a credit to our city the testimony of William A. Brady, recognized as the king of the "movie world" before the House Ways and Means Committee is particularly interesting. We will appreciate the versatility of Mary Pickford, we envy sometimes the humorous sketches of "Charlie" Chapman and the screams that attend the exhibitions of "Fatty Arbuckle" and the hairbreadth stunts of "Doug" Fairbanks. But to the average man, woman or child, who pays his and her twenty or thirty cents in order to witness a finished picture and enjoy an hour and a half entertainment there is no appreciation of the financial outlay that goes to make up a picture.

Mr. Brady appeared before the House Ways and Means Committee during the past week and what he said about the moving picture industry is well worth repeating in this column.

"The day of the high-saiaried stage star and large profits from theatrical productions is passed," was the testimony of this moving picture expert.

"Four thousand moving picture houses closed down in New York alone during the past year," he continued, "and but one-third of the movie studios are operating. There is but one concern in the East producing pictures while in California where most of the films are made only thirty per cent. of the operatives are at work.

"Ninety per cent. of the moving picture actors are walking the streets at the present time searching for work and unless some relief is afforded the industry in the shape of reduced taxation, this means of entertainment will be abolished altogether."

Brady pointed out during the course of his testimony before Congress that "Charlie" Chaplin had made as high as $1,200,000 in one year, including royalties received from his films.

"But the fabulous salaries paid the Chaplin—Fairbanks—Pickford combination will be a thing of the past just as soon as their contracts and individual management expire." He said. "movie world has been hit with a sledge hammer more than any other industry in the country and we are appealing to the Congress at this time to relinquish some of the objectionable taxes, including the ten per cent. admission tax which has proven a drain, not only upon the patron of the moving picture house but the producer and exhibitor as well.

Alexandria Gazette AND VIRGINIA ADVERTISER

PUBLISHED EVERY AFTERNOON Except Sunday By the Alexandria Gazette Corporation 317 King Street, Alexandria, Va.

THEODORE HARRIS, Editor

Entered at the Postoffice at Alexandria, Virginia, as second class matter.

TODAY'S THOUGHT The very essence of a free government consists in considering offices as public trusts, bestowed for the good of the country, and not for the benefit of an individual or a party.
John C. Calhoun.

GET OUT THE VOTE

The primary of tomorrow will in a measure at least, affect the destinies of Virginia for the next four years. The strenuous campaign for the gubernatorial nomination closes today. It has been fought for the most part without the usual accompaniment of noise and fireworks, but with an earnestness and intensity of conviction, none the less, that has succeeded in thoroughly arousing the electorate. But in this very fact the danger lies. Over-confidence breeds carelessness, whether in war or politics, and there may be thousands tomorrow, who, relying on their neighbors to do the voting, will allow some other matter, whether of business or pleasure or mere indolence, to interfere with what should be their most important duty on that day. It is in view of this that we urge upon the men and women of Alexandria to make it their first order of business, not only to vote themselves, but to impress upon their friends the urgent necessity of doing likewise.

HOW WOMEN SHOULD VOTE

The women of Alexandria should remember as they vote tomorrow, that they exercise their inalienable right of suffrage, not for anything Mr. Tucker has done for them, but in spite of his efforts to deny them their franchise. Had he had his way, they would still be classed among idiots, minors and paupers. He says now that he will abide by the law enfranchising them; but he opposed it before it became a law. The question for women to consider is, can a man whose mind went wrong on so simple and fundamental a question as the right of women to vote, think rightly and logically on other questions in which women are not only interested but on which they now have a right to express themselves at the polls.

Trinkle, on the other hand not only believed in the right of women to vote, but argued for it on the stump and fought for it in the legislative halls. Is he not a safe man for women to trust? Is he not the kind of man they want for their state executive?

Let them go to the primary tomorrow and register their will unmistakably and emphatically!

We believe the votes of the women of Virginia will decide tomorrow's contest overwhelmingly in favor of Senator E. Lee Trinkle!

We have one suggestion to women voters — V O T E EARLY!

TRINKLE'S ENDORSEMENTS

The school superintendents of Virginia at their state convention recently, unanimously endorsed Senator Trinkle for the Democratic nomination for governor. So did the Virginia Pharmaceutical Association shortly afterward. So have the various labor organizations and their officers throughout the state. These endorsements are not idle compliments. They are made by serious bodies of Virginia's thinking citizenship with the one idea of helping win the fight at tomorrow's primary. Virginia needs the best man she can get at the helm of state during the next four years. Such a man offers in Senator Trinkle. Such a man should be elected, and such a man will be elected in spite of the tricks and machinations of political henchmen driven to desperation. Tomorrow will witness a victory that will turn over a new leaf in Virginia's political history.

BEWARE OF TRICKERY

We wish to caution our readers to beware of anonymous circulars and postcards, and to disregard the mud-slinging, unsigned literature that may be scattered broadcast during the last hours of a somewhat heated political campaign. This is usually the unscrupulous method resorted to by the adherents of a defeated candidate, at a time too late to be refuted. It is done on the theory that a falsehood is as efficacious as a truth when there is neither time nor opportunity to deny it. It is a trick as old as the hills, and deceives none but the inexperienced.

To the Voters of Alexandria:

I am a candidate for Civil and Police Justice of the City of Alexandria, subject to the Democratic Primary to be held on August 2nd, 1921.

As it may not be my pleasure to have a personal interview with you before the date of the Primary, I take this means of soliciting your support.

This is a very important office to the City of Alexandria, including as it does, the work of the present Police Justice with the trial of all civil cases of a certain class in the city.

If elected, I shall give my best attention to the duties of the office, and shall administer the law as I find and construe it, impartially to all, and without favor to any.

I have practiced law in this city for over [illegible] years and am well acquainted with the people of the city and with local conditions, which experience and acquaintance I consider qualify me for the office of Civil and Police Justice.

On my return from the law school of the University of Virginia, I located in Alexandria to practice my profession. Alexandria's success or failure is mine, her destiny is my destiny.

I assure you that I shall appreciate your vote.

Respectfully yours,
AYLETT B. NICOL.

Friends Really Became Alarmed.

Change In Richmond Woman Since Taking Tanlac Is Nothing Less Than Wonderful.

"I don't believe a person could feel any better than Tanlac has made me feel," said Mrs. W. E. Whitlow, 3315 East Q. St., Richmond, Va.

"I suffered for months from a general run-down condition. My appetite left me and I suffered so from nausea I could hardly retain anything. I was so nervous I just dreaded to see night come. I was troubled with frequent attacks of dizziness and I had to sit down to keep from falling. I lost weight and was so weak that the least exertion completely exhausted me so I could not do my housework. I took numbers of medicines, but kept getting worse and my friends were greatly alarmed at my condition.

"But it is altogether different with me now, as Tanlac has helped me wonderfully. My husband, who has been a great believer in Tanlac for sometime, got me a bottle and from the very first dose I noticed an improvement, as my stomach began to get better and my appetite picked up. I am eating everything I want and it doesn't hurt me, and I can't remember when I have felt as good as I do now. I do all my work with ease, and my friends are always asking what it is that has made such a change in me, and I always tell them Tanlac."

Tanlac is sold in Alexandria by Edgar Warfield, Jr., and leading druggists everywhere.

VOTE FOR FRANK STUART FOR CIVIL AND POLICE JUSTICE

1. He is well qualified for the position.

Graduate of law University of Virginia; fifteen years experience as practicing attorney; three years experience as a law writer; has held office of State Examiner of Records, State of Virginia; former clerk of the Circuit Court of Westmoreland County, Virginia.

2. Because he is fearless and a man of independent judgment and action, and can not be dictated to by politicians.

3 Because he has a definite platform and well settled policies, principles and opinion, and is not afraid to express them.

4. Because he believes that the Court should be kept out of and above politics.

5. Because he is against ring rule, and machine politics and does not believe that politicians should manipulate our public offices for their own individual benefit, and not in the interest of the people.

6. Because he believes that the Courts should be conducted on a business-like basis, and the law enforced without fear or favor.

7. Because he belivees that a candidate should "run for office" and not be run for office" in the interests of professional politicians.

8. Because he is in favor of clean government, clean politics and whatever is for the benefit of our city.

The election of the best man for Governor will have very little effect upon the conduct of our local, civil and police court, but the way this office is conducted will depend entirely upon—the man you select as your judge. The manner in which our public offices are conducted depends absolutely upon the character of men we elect to fill our public offices. It is a duty of every good citizen to vote on the 2d day of August, 1921, in the Democratic Primary. Vote for the best qualified man for the position. Do not vote for a man simply because he asked you first, a higher duty rests on the voter.

Do not fail to come to the polls and vote.

Polls open from sun-rise to sun-set.

Women can pay their capitation tax and register to vote up to and including the date of election.

Come out and vote; vote intelligently; vote against ring rule and machine politics, and against the candidate of the machine for the above position, and let August 2, 1921, sound the death knell of ring rule and machine politics in the City of Alexandria.

REO

New Models— New Prices

Here's the news you have been waiting for.

For months past the one query most often propounded in motoring circles has been, "What is Reo going to say—and when?"

Here's the answer.

New Closed Models—4-passenger Coupe and 5-passenger Sedan—are now available.

New Prices on Touring and Roadster models effective August 1st.

Story is too long to tell here. 'Twould take a page to tell you about one model alone.

Besides you will have to see these new Reos to fully appreciate.

Suffice to say, all Passenger Car Models have that wonderfully silent, sweet-running, amazingly powerful Reo Six Motor—the greatest motor in the world of its size and for its purpose.

In every genuine advance in automotive science—in all that makes for greater motoring satisfaction—this Six upholds Reo traditions of leadership and merits the title, "The Incomparable—the Six of Sixty Superiorities."

The epitome of Reo engineering experience—the last word in coach building.

In that mighty Reo Speed Wagon we now have something sensational to offer you.

Nobby Cord Tires all 'round and —a greatly reduced price—also effective August 1st.

This Speed Wagon dominates the field regardless of carrying capacities.

Wherever Motor Trucks are known this Speed Wagon is known as the best.

It fits every business—meets every carrying need.

Range of usefulness is practically unlimited—most versatile as well as most dependable.

Always the lowest priced commercial car of its carrying capacity, this Speed Wagon is now a better buy than ever.

When you've seen these new Reos and heard the new prices, you'll say, Reo is today, more then ever, "The Gold Standard of Values."

Come in and see and hear the whole story.

EDITORIAL

We have nothing in relation to the cannoading heard on Thursday. We presume the conjectures of an attack having been made on Annapolis must have been incorrect. Had such an event happened it would certainly have been made known before this.

We understand accounts have been received at Washington that the British have re-embarked all their men from near Point Look Out, at the mouth of the Potomac.

We hope now Mr. Madison's hostility to New England will be stifled for a short time, after his second abortive attempt to cut off the miserable pittance of trade which this war has left in their power to glean..... When his friend Bonaparte issued his licenses in favor of particular ports of our country, we heard nothing of "insidious discrimination." We cannot be too thankful for having a Senate who are not disposed to bear him through with all his unaccountable partialities and unaccountable antipathies.

Four-Cylinder Buick Now Ready.

Announcement is made today of the presentation before the motoring public of Buick's new four-cylinder line. There are four models in the line including roadster and five passenger sedan in the closed models.

Inasmuch as it has been known in the automotive trade for some time that Buick purposed adding a line of fours, considerable interest attaches to the specifications covering the new models. In motor construction Buick has adhered to the valve-in-head principle with which its name has been so prominently connected for twenty years. The cylinder bore is 3 and 3-8 inches with stroke of 4 and 3-4 inches. The motor develops between 3 and 40 brake horse power and road tests have shown that the power plant will deliver up to 50 miles an hour with ease.

Features of motor construction are the large three-bearing crankshaft and 12-inch long connecting rods, extra long rods being provided to reduce vibration to a minimum. A circulating splash oiling system gives automatic lubrication throughout. An other important feature, which is standard equipment o nall Buick cars, is the automatic carburetor heat control through which ideal vaporizing conditions are obtained.

The transmission is of the selective sliding gear type, three speeds forward and one reverse. The universal joint is of standard Buick construction, being virtually an integral part of the transmission and automatically lubricated from the transmission. The clutch is of the multiple disc dry plate type, built in exact accordance with the principles which have guided clutch construction in Buick sixes. All moving driving parts are enclosed

Front axle of the four-cylinder car is an I-beam forging. The rear axle is three-quarter floating type, all the weight of the car being carried on the axle tubes and only driving torque and steadying of the wheels being taken by the axle driving shafts. The third member is of standard Buick type of construction, designed successfully to eliminate all twisting or weaving in the rear axle. Gear ratio of the rear axle on high speed is 4 and 2-3 to 1.

Wheelbase of all models is 109 inches. The spring suspension is designed to give fine riding qualities to a car of this wheelbase. The front springs, semi-elliptic type, are 36 inches long, and the rear springs, also semi-elliptic, are 55 1-2 inches long.

Cord tires are standard equipment on all models. These tires, which are 31x4, are the first straight side cord tires in this size ever manufactured and were built especially to meet Buick requirements for the new four-cylinder cars. The tires have been adopted as standard size.

The chassis is lubricated with the high pressure Alemite sysem, Delco starting and lighting system is standard equipment. All models are complete with tire carrier and extra rim and all are equipped with non-glare headlight lenses.

Shipping weight of the four models are: Roadster, 2310 pounds; touring car, 2380 pounds; coupe, 2430 pounds; sedan, 2650 pounds.

Prices, f. o. b. factories at Flint, Mich., are: Roadster, $935; touring car, $975; coupe, $1,475; sedan, $1,650.

In adding the four-cylinder models to the seven models of six-cylinder cars now produced, Buick executives feel they have rounded out their line and constructed cars which are in every respect worthy of the Buick name.
